

All dogs and cats shown can be seen at the Brian J. Silverlieb Animal Care and Control Center on Old Farm Road in Newtown, CT (203) 426-6900.

Angel- has been at the shelter for 2 1/2 years through no fault of her own. She was part of a court case that prevented her adoption. But she's available now! Angel loves people and seems especially fond of children. She walks well on leash and loves sinking into thick bedding. We'd like her to be with someone who'll give her the TLC she deserves but isn't getting in a shelter environment.

Rusty- has been at the shelter for 2 1/2 years. He wasn't available because he was part of a lawsuit. Fortunately, that has been settled, so he can now find his forever home. Rusty's a big boy who loves playing in the water and giving bear hugs. He gets along with most other dogs.

Porter - an orange striped short haired male cat not quite a year old. He is a carbon copy of Brooks in every way except that he is not as inquisitive or active. Porter is content to lounge around but also displays a friendly and inquisitive nature.

Brooks - an orange striped short haired male cat not quite a year old. He was found living in an abandoned home along with another male cat, likely his brother. He is friendly, inquisitive, active, and not at all hesitant about meowing to make his presence known. In a perfect world it would be ideal for him to be adopted with his brother, Porter, since they get along so very well. But if that were not possible he would still make a very handsome pet for some family willing share their home with him.

Bonnie - a gray striped female cat around 6 years old and spayed. She is a short haired cat and very laid back, quite gentle and content to lounge around if nothing exciting is happening. Bonnie was abandoned at an animal hospital and underwent minor surgery to remove a growth. She is quite healthy and would make a lovely pet in a quiet home setting.

Sunny - is a sweet little female pitbull/hound mix. She weighs around 40 pounds, has a very soft white & tan coat, and is quite energetic - the picture of health! This little girl is a very sweet lady with the potential to become your very best friend. Sunny has been living at the shelter for about 3 years and is quite eager to make that leap into the arms of a compassionate someone willing to give

her a home. Sunny is a very gentle lady who can easily fit into just about any home. She's a sweet dog with special needs, due to the fact that she suffers terribly from separation anxiety. Sunny cannot stand to be alone. And, she is terrified of thunder. Clearly, she needs someone with patience and insight to make a family with. Can you be that someone? Are you that one in a million special someone that she can bond and thrive with?

Rudy - An American Staffordshire Terrier, male, neutered and weighing about 40 pounds. He is about 3 yrs old years old with a white and brindle coat. The brindle coloring covers his left eye making him look remarkably like "Petey". He was found roaming in Newtown and was brought to the shelter. He is housebroken and responsive to basic commands. Just entering the prime of his life, Rudy is a very powerful/ muscular dog. Since he is quite shy and skittish right now it is strongly recommended that he not be adopted by a family with small children.
